CAREER OBJECTIVE

Aspiring software developer and recent graduate with proficiency in HTML, CSS, Bootstrap, JavaScript, React.js, Redux.js, Node.js, Express.js, SQL, and strong foundations in data structures and algorithms. Seeking a dynamic role to apply technical expertise and contribute to impactful projects. Committed to continuous learning, collaborative problem-solving, and delivering innovative solutions in a team-oriented environment.

EDUCATION

Presidency University	2023
B.Tech, Electrical and Electronics Engineering	
Accord School	2019
Class XII	
Ravindra Bharathi School	2017
Class X	

PROJECTS

E-Commerce

- Engineered an authentication-centric e-commerce website, ensuring a secure and seamless user experience.
- Implemented user authentication features (login, signup, logout) with HTML, CSS, JavaScript, and ReactJS for a responsive and dynamic frontend.
- Employed Context API for efficient application-wide state management, optimizing personalized shopping cart functionality.
- Integrated Firebase for robust user authentication and real-time data storage, ensuring reliability and scalability.
- Prioritized website optimization for user satisfaction, emphasizing simplicity and functionality in alignment with best practices.

Expense Tracker

- Engineered a streamlined Expense Tracker, facilitating seamless monitoring and management of user expenditures.
- Implemented premium features, empowering subscription users to download expense data in Excel format.
- Ensured robust security for users' financial data through effective authentication measures.
- Established a user-friendly limitation, allowing non-premium users to add expenses up to ₹10,000.
- Utilized a technology stack, employing HTML, CSS, JavaScript, ReactJS, Redux for the frontend, and Firebase (Realtime Database) for a reliable backend.

Mail Box Client

- Engineered a Mail Box Client to optimize email communication, utilizing HTML, CSS, JavaScript, ReactJS, and Redux for a responsive frontend.
- Established individual mailboxes to streamline correspondence management, emphasizing user-centric design principles.
- Implemented real-time data management through Firebase (Realtime Database) for a secure and reliable backend.
- Achieved a seamless communication experience, ensuring the application's user-friendly design.
